

The Web of Today

Fundamentals of scientific metadata: why context matters

The Web of today

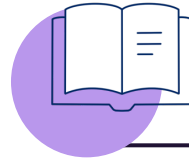

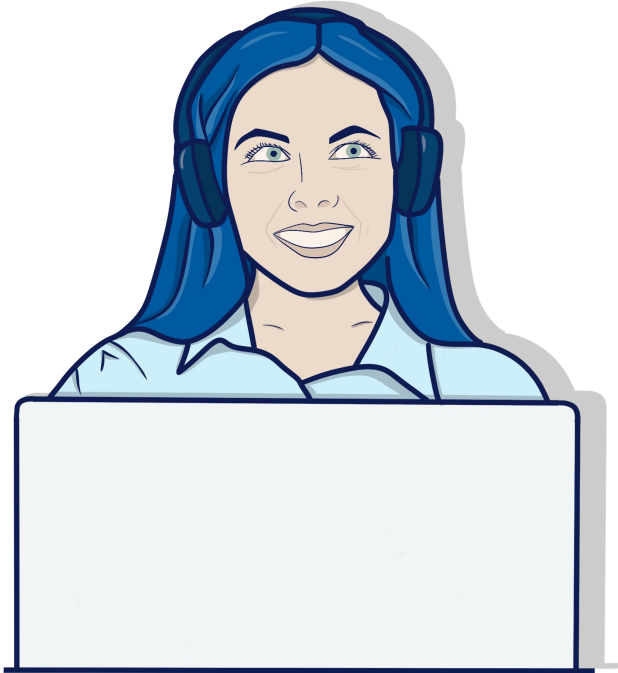

The Web of today

«The original idea of the web was that it should be a collaborative space where you can communicate through sharing information.»

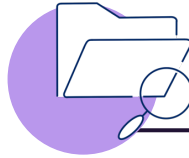

Tim Berners-Lee

Reading publications

Connect with colleagues
and collaborators

Retrieve and publish
data

Attend conferences and
talks

Access servers
far away

Vocabulary: Web resources

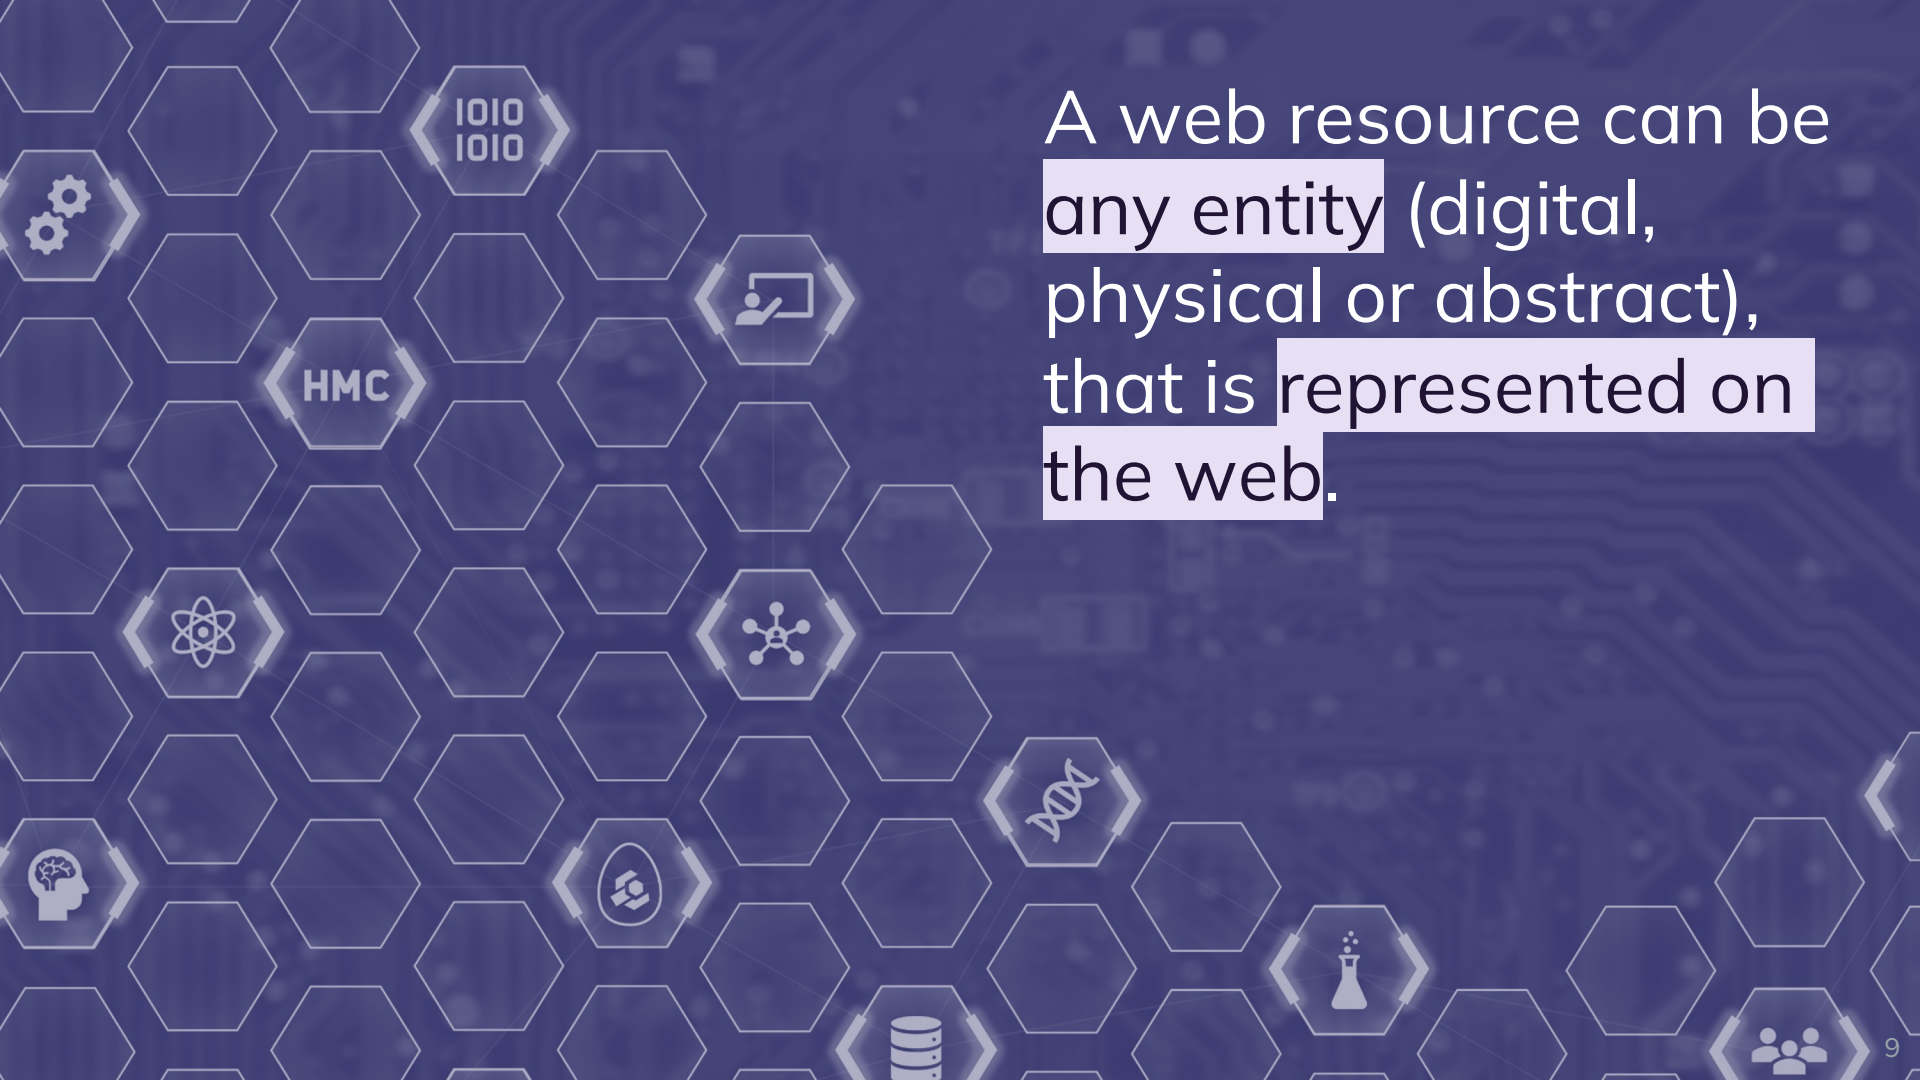

Vocabulary: Web resources

A web resource can be
any entity (digital,
physical or abstract),
that is represented on
the web.

DISCLAIMER
