CHALLENGE 1: REAL WORLD METADATA

1. Open one of these web pages in your preferred browser:
   Science Journal
   The Guardian
   German Federal Government.

2. Open **one of the articles** linked on the main page.

3. Inspect the **web page source code**.

4. Look for **meta tags** in the HTML source code `<head>` element.

5. Assign some `<meta>` tags to one of the categories **descriptive**, **administrative**, **structural**

CHALLENGE 1:

Real World Metadata

DISCLAIMER

This slide deck is part of the Lesson

**Fundamentals of Scientific Metadata:
Why Context Matters**

published on **The Carpentries Incubator**.

Please cite this presentation as:
